Summary

Skilled programmer software developer in Javascript and React.js obsessed with fixing bugs and writing sleek and optimized code. I will not rest until all your bugs have been squashed, your applications are running smoothly and efficiently, and your codebase is fully optimized. I have built large custom fullstack application and REST API's.
I probably have more experience than your average bootcamp graduate or college undergraduate, so give me a chance to show you what I can do for your company!
